ABOUT ME

I'm a Computer Programming and Analysis student at George Brown College. I enjoy building reliable web applications and APIs, working with databases, and solving problems step by step. I work well in team projects, learn quickly, and focus on clean, practical solutions. I'm currently looking for an internship or junior developer role.

EDUCATION

Advanced Diploma, Computer Programming and Analysis

George Brown College
2023 – 2026

Certificate, English for Academic Purposes (EAP)

George Brown College
2022 – 2023

EXPERIENCE

Backend Developer (Team Project) *2025– Present*

George Brown College (Student Project) | Toronto, ON

- Developed REST API endpoints and server-side logic for core features
- Created and updated database tables/queries for user and service data
- Used Git/GitHub for version control and collaborated in an Agile workflow

Web Developer (Personal Project) *2025- Present*

Self-Directed | Toronto, ON

- Built a responsive website using HTML, CSS, and JavaScript
- Deployed the site with GitHub Pages
- Improved layout and accessibility for a clean, professional design

Full-Stack Developer — Employee Management API *2025- Present*

George Brown College (Student Project) | Toronto, ON

- Built CRUD endpoints using Node.js and Express
- Added input validation and error handling for API requests
- Connected the app to a database and tested endpoints using Postman

English for Academic Purposes (EAP) *2022- 2023*

George Brown College | Toronto, ON

- Improved academic writing, research skills, and formal email writing
- Practiced presentations and speaking for college-level classes
- Built confidence in grammar, vocabulary, and classroom communication
